.

Background of JTDS:

Jharkhand Tribal Development Society (JTDS) was established with the objective of improving the living conditions of tribal people in general and PVTGs in particular. This is sought to be achieved by "organising and enabling the communities to adopt sustainable and productive natural resource management regimes, adopt market-oriented production systems and learn the skills and gain the experience of planning and implementing development plans relevant to their villages".

JTDS was established on 2002 as a society under Dept. of Welfare, Govt. of Jharkhand. Since its inception it is continuously working for the betterment of Tribal people of Jharkhand. It has successfully implemented the International Fund for Agricultural Development (IFAD) funded Jharkhand Tribal Development Programme (JTDP). After completion of the JTDP, IFAD again funded for another project called Jharkhand Tribal Empowerment and Livelihood Project (JTELP), which started in October 2013 and will be completed by December 2021. Under JTELP, JTDS has worked with 2.11 lakhs households in 1779 villages of 32 blocks spread across 14 districts of Jharkhand.

The Central idea of the JTELP was to encourage the Tribal Population towards Various Livelihood options available at their disposal and which are they already acquainted with i:e through Agriculture and Livestock Rearing.

Background

Removing rural poverty, estimated at 41.8% is the key challenge before India. Poverty is highest among the Scheduled Tribes (STs) in the Central and East Indian plateau encompassing Jharkhand. Among the STs, PVTGs are the most vulnerable and required hand holding support to come out of the abject poverty. Therefore under the "Income Generating Activity" both identification of proper trade as well as training and capital support has been proposed
