Executive Summary

Jharkhand Tribal Development Society (JTDS) is continuously working for the betterment of Tribal people of Jharkhand since 2003, It has successfully implemented the International Fund for Agricultural Development (IFAD) funded Jharkhand Tribal Development Program (JTDP).After completion of the JTDP, IFAD again funded for another project called Jharkhand Tribal Empowerment and Livelihood Project (JTELP),which started in October 2013 and will be completed by December 2021. Under JTELP, JTDS has worked with 2.11 lakhs households in 1779villages of 32 blocks spread across 14 districts of Jharkhand.

1. After Successful Completion of JTELP (IFAD Assistance) JTDS is implementing various livelihood activities such as Solar Based Irrigation System, Vermi Compost Production, Mushroom Cultivation, Apiculture, Fishery Development, Livestock Development with Tribal Community and also intervention like Targeting Hard Core Poor (THP) with PVTG's under SCA to TSS and CCD Schemes in Which SCA to TSS Schemes has been Completed in the mid of this year, only Financial process is going on.
2. Project Under CCD Schemes are Targeting Hard Core Poor -THP with PVTG in 8 Blocks (3750HH)
3. Another CCD Programme is Income Generating Activity (IGA) to PVTGs are Apiculture in 3 Districts (500 HH), Piggery in 4 Districts (210 HH) and Duck Rearing with Fish Culture in 9 TSP District for 90 Ponds(117 HH).
4. Implementation of FPO (Farmers Producer Organization) started in 4 District through NABARD.
5. Survey Study conducted on the Project Titled " Evaluation Study of Various Developmental and Welfare Schemes among the PVTGs of Jharkhand by Ram Dayal Munda Tribal Welfare Research Institute (RMTWRI) -Ranchi in 6 Districts.
6. Apart from Handholding support JTDS-DPMUs are Liasioning with all the line departments for providing benefits of ongoing schemes of Under Convergence in all the 14 Districts.
7. Proposal for Various Projects prepared and submitted to Departments and Other Agencies for Approval

Background of JTDS:

Jharkhand Tribal Development Society (JTDS) was established with the objective of improving the living conditions of tribal people in general and PVTGs in particular. This is sought to be achieved by "organizing and enabling the communities to adopt sustainable and productive natural resource management regimes, adopt market-oriented production systems and learn the skills and gain the experience of planning and implementing development plans relevant to their villages".

JTDS was established on 2002 as a society under Dept. of Welfare, Govt. of Jharkhand.

Ongoing Projects/Schemes

S.N	Name of The Scheme	Scheme	Location of Project	Target (Physical)	Achievement (Physical)	Remarks
1	2	3	4	5	6	7
1	Targeting the hard core poor project (THP) to graduate 3750 PVTGs Household	CCD	Ranchi, Lohardaga, Gumla, Latehar, Simdega, East Singhbhum, West Singhbhum & Saraikela Kharsawan	3750 HH	3750 HH	Completed in March 2025
2	Apiculture with PVTG	CCD	Latehar, Gumla & Lohardaga	100 HH	100 HH	Completed in March 2025
3	Livestock Development with PVTG (Piggery)	CCD	Dumka, Godda, Pakur, Sahibganj	210 HH	210 HH	Completed in March 2025
4	Fish Cum Duck Culture with PVTG	CCD	Ranchi, Lohardaga, Gumla, Latehar, SK, Dumka, Pakur, Godda, Sahibganj	90 Ponds	83 Ponds	Ongoing Work, Fish Stocking has been completed through Convergence with Fishery Department, GoJ. Distribution of 830 Ducks are completed (for 83 ponds) , rest going on .
5	Farmers Producer Organization (FPO)	NABARD	Gumla,Latehar,Simdega & Godda	4 Nos		Sanctioned in Dec 2024 (3 Years Project). Registration of FPO has been completed in Company Act.

6	Convergence with Different Line Department	GoJ	All 14 TSP District (Ranchi, Khunti, Lohardaga, Gumla, Simdega, Latehar, East Singhbhum, West Singhbhum, Saraikela-Kharsawan, Dumka, Jamtara, Godda, Pakur & Sahibganj)	Detail Attached		Apart from Handholding support JTDS-DPMUs are Liasioning with line departments for providing benefits of on going schemes of Agriculture Department, Welfare Department, Animal husbandry & Fisheries Department, Rural Development department etc to beneficiaries of project village.
7	Survey on the Evaluation Study of Various Developmental Schemes among PVTGs of Jharkhand	RMTWRI-GoJ	4 Districts (Godda, East Singhbhum ,Latehar & Gumla)	2400 HH	2315 HH	Basic Training has been completed. Pilot survey has been going on as per direction from TRI. Survey will be done of @300 HH of each PVTG.

Funded by the CCD scheme of Government of Jharkhand

Background

Removing rural poverty, estimated at 41.8% is the key challenge before India. Poverty is highest among the Scheduled Tribes (STs) in the Central and East Indian plateau encompassing Jharkhand. Among the STs, PVTGs are the most vulnerable and required hand holding support to come out of the abject poverty. Therefore under the "Income Generating Activity" both identification of proper trade as well as training and capital support has been proposed

District wise PVTG HH

District	Total Households	Number of Primitive Tribal Group HH	Number of ST HH	% of Primitive Tribal Group
Dumka	262618	6441	112926	2.45%

Activity 1 – Targeting Hard Coor Poor (THP)

Status Report (as on 31st March 2024) amount in INR lakhs							
Sl. No	Name of The Activity	Name of Scheme	Physical		Financial		Remarks
			Target	Achievement	Achievement	Achievement	
1	Targeting the hard core poor project	CCD	3750 HH	3750 HH	439.59	3.36	Physically Completed

.

The THP programme is known globally as the,, Graduation Approach "started implementation in India by the NGO Bandhan Konnagar since 2006. The Targeting the Hardcore Poor (THP) programme, consists of six complementary components, each designed to address specific constraints facing ultra-poor households. This set of activities over the course of the full 24 months is to Help house holds start a productive self-employment activity and improve outcomes of health,food security and over all well-being.

The idea is to provide a"big push"with the hope of unlocking a poverty trap. Beneficiaries are identified through a participatory process in a village meeting, followed by a verification visit by the organization"s staff, and endorsement by a village committee. Beneficiaries are then given an asset, along with enterprise training and on-going support over18 months. At the end of the 24 months, the beneficiaries have a graduation training to check that they have reached the

Minimum out comes and to provide them information regarding government support programmes, as well as financial services. Upon graduation, beneficiaries completely exitfrom THP programme support.

The broad objectives of the programme are:

- To bring in economic, social land inspirational changes in the lives of the hardcore poor families.
- To provide holistic assistance to capacitate the hardcore poor in building self-reliance and sustainable livelihoods with improvement in overall quality of life
- To facilitate convergence with Government schemes & entitlements for the hardcore poor
- To enable graduation of the hardcore poor into socio-economic main stream within 24 months.

Jharkhand Tribal Development Society proposed said programme in collaboration with Central Government of India through CCD Scheme in Southern & Kolhan region of Jharkhand with 3750 HH in Ranchi, Lohardaga, Gumla, Latehar, Simdega, Eastsinghbhum, WestSinghbhum & Saraikel aKharsawan District through the Agency Jan Jagran Kendra & Mahila Jagruti Samiti

THE PROGRAMME STRATEGY:

The Targeting the Hard Core Poor (THP) Programme in JTELP scale-up was intensively focused to cover the most deprived Particularly Vulnerable Tribal Groups(PVTGs) households in the select villages under JTELP project areas across the four districts through the combination of the following strategies.

- ✓ Mapping project villages with majority PVTG households across four districts and identification of most vulnerable households through Gram Sabha-ratified villag eleveldata of vulnerable households
- ✓ Analyzing village level SECC 2011 data followed by PRA process including Social Mapping, wealth ranking, followed by individual household survey and final verification to cross verify JTELP vulnerable house hold list and include excluded eligible beneficiaries
- ✓ Identifying enterprise opportunity, confidence building training and assisting beneficiaries to select enterprise/ income generating activities(IGA) for sustained livelihood
- ✓ Transferring relevant productive asset(farm/non-farm/mixed)to beneficiaries
- ✓ Training to beneficiaries on Technical skills for income generation activities (farm/non-farm/mixed)
- ✓ Temporary consumption support through training allowances
- ✓ Weekly training and handholding support to understand and create awareness about accessing social welfare entitlements (health, education, nutrition, social security, financial inclusion, livelihoods and income generation) and follow-up on regular basis to track beneficiary development
- ✓ Increase regular and periodical savings habit through financial inclusion
- ✓ Develop self-employment skills by weekly coaching through home visits, group meetings
- ✓ And periodical refresher trainings to generate sustainable self-employment/income generation activities even after THP programme completion
- ✓ Awareness promotion and behavioural change communication for sanitation and hygiene to promote use of sanitary latrines and stop open defecation

- ✓ Final graduation training to transition women out of extreme poverty and into self-sufficiency including functional linkages to self-help groups

To ensure a targeted approach with zero exclusion of the most vulnerable and socially excluded households in the proposed THP in JTELP scale-up, PVTG households satisfying the following criterion has been included in the short listing and selection process.

- Headed by an able-bodied woman from PVTG families
- Have no active loans with a MFI/SHG or any other formal financial institution
- Have no productive/income generating assets to sustain the family
- Have not received any support from any Govt Schemes for housing of Goat/Hen

Introduction

Ministry of Tribal Affairs(MOTA) has been undertaking various endeavors for socio- economic development of Schedule Tribes (ST) through schemes on education, infrastructure and livelihood and other activities to address critical gaps. Tribal Sub Plan (TSP) is a dedicated source of finding Tribal Development across the country. Major part of infrastructure development in tribal dominated areas and provision of basic amenities to tribal people in the country are carried out through various schemes/programmes of concerned Central Ministries & the State Government. MoTA supplements these initiatives by ways of filling gaps. In this backdrop, Conservative Cum Community Development (CCD) which is a part of the umbrella Scheme for the development of ST community is directed towards providing grants/UTs an additive to their own efforts for accelerating Tribal Development & strengthening institutional arrangements.

In this connection, to execute the Bee Keeping and Honey Processing Unit Project, in 3 districts of state, Jharkhand Tribal Development Society (JTDS) has selected two implementing agency Jan Jagran Kendra (JJK) for implementation of the activity. 3 selected districts comprises of Latehar, Gumla & Lohardaga with 100 PVTG beneficiaries .

PROJECT OBJECTIVE & PURPOSE

Overall Objective

The Overall objective of the project is to support beekeeping activities to engage the tribal people of in the production of high quality honey and marketing of same.

Specific Objective

The specific objectives of the project are:

- Strengthen farmers in suitable agro-ecological zones to establish production of high-quality honey.
- Introduce farmers to user-friendly honey production technology that ensures quality honey production to targeted groups.
- Increase household income for the participating households.
- Train farmers in hive management and honey production.

PROJECT IMPLEMENTATION

The project was implemented in the following phases:

- Identification of Beneficiaries.
- Training of Beneficiaries.
- Selection and training of Master Trainer.
- Distribution of Bee boxes with accessories.
- Providing Handholding support.
- Monitoring and Evaluation.
- Honey Production

Training of Beneficiaries- 10 days Training of all the 100 beneficiaries was Plan in then Month of June –July 2024 at RKMA.

The Participants will received training on;

- Basic Beekeeping
- Management of Bee Keeping
- Swarm control in Bee Colonies
- Bee Hive Management
- Handling Bee Keeping Equipment's and harvesting procss
- Marketing

Asset Distribution - After successful completion of trainings, 100 participants being distributed Desi Bee Box and Other Equipments among beneficiaries. Bee Boxes has distributed to 100 Beneficiaries (@ 5 boxes each beneficiary).

During the hives distribution, all the beneficiaries received the following;

- Tool Kit Set (Knife, Smoker, Bee Veil, Hammer): 250 Set
- Honey Extractor (For Italian Bee Box) @ 1 per 5 Beneficiaries: 30
- Honey Extractor (For Desi Bee Box) @ 1 per 5 Beneficiaries: 20
- CF Sheet 1 Kg per Bee Colony: 5 Kg to per Beneficiaries.

Activity 3 – Piggery

Status Report (as on 31st March 2025) amount in INR lakhs							
Sl. No	Name of The Activity	Name of Scheme	Physical		Financial		Remarks
			Target	Achievement	Achievement	Achievement	
1	Pig Rearing	CCD	210 HH	210 HH	49.5	44.32	Completed

JTDS has received a sum amount of Rs 109.59 Lakhs under CCD schemes for the FY 2021-22 for Income Generating Activity under Livelihood in different types of Activity. Among them one of the Activities is Livestock Distribution among the PVTG beneficiaries. The PVTGs of the Jharkhand are most marginalized and mostly dependent on mono-cropping or hunting -gathering. As most of them do not have enough land to cultivate throughout the year. Livestock is good option for enhancing their livelihood options. of the HHs already practices Goat (Locally available) but they are very mush eager to rear Pig. So, from this scheme Pig Rearing under Animal Husbandry section has been proposed. The guidelines have been prepared to keep in consonant with the lines of general guideline of "Mukhyamantri Pashudhan Yojana" with reduced unit size to fit the need of the targeted community.

Unit Cost of Pig Rearing (Local Breed)

S.N	Item	Cost (In Rs)	Remarks
1	One Female Swine(Rs 4500) +One Male Swine(Rs 5500)including transportation	10000	Age of the livestock should be minimum 4 months , body weight 12-20 Kg (Specification)
2	Insurance @8% of the unit	800	Insurance can be done as per Govt norms
3	Feed Support -4.5 Kg /day for both animal for 3 month @25/kg (4.5*30=135 kg/month) =405 kg for 3 months	10125	Along with this, beneficiary may arrange Kitchen/ Vegetable Waste as an additional feed
4	Medicine /De-worming Vaccination	600	Vaccination & Deworming must be done before/during distribution
5	Training to Beneficiary	500	One day field level training to beneficiary for proper management

	Total	**22025**	

District wise Target

District	No of HH	Remarks
Dumka	50	All the new HH who are never benefitted from any Such type of Similar Schemes either by JTDS or any other Govt Schemes. Beneficiary may be selected from other than JTDS Block i:e in whole District (PVTG HH) Only
Pakur	60	
Sahebganj	50	
Godda	50	
Total	**210**	

Operational Guidelines:

Selection of Beneficiaries:---

1. First DPMU will prepare the list of beneficiaries from the PVTG Community directly by themselves in presence of the Gram Pradhan/PRI members.
2. Only those PVTG households can be selected which are NOT part of the livestock beneficiaries under THP/Livestock Cluster under JTELP/Livestock Distribution under CCD Scheme/Mukhyamantri Pashudhan Vikash Yojna or any other schemes related to Livestock Distribution.
3. The list of Beneficiaries will be approved by the Gram Sabha in presence of Gram Pradhan in the prescribed format provided by JTDS.
4. DPMU will submit the copy of the approved list of the beneficiaries alongwith the proceeding /minutes of the Gram Sabha meeting in the SPMU.
5. After the approval of the list by SPMU , implementation will be started.

Purchase of Livestock

1. **Tender Process:** For Purchasing of Livestock, Tender Process may be initiatives as per Govt/JTDS norms, as already purchase committee has been formed in JTDS. All the purchase activities can be done from SPMU.
2. Purchase Committee of JTDS may consider purchasing from the agencies /vendors already approved by the Animal Husbandry Department.
3. If necessitates the agency (selected Through Tender or nominated Vendor) with the minimum price will be given order for purchasing of Livestock(Pig)
4. **In case of quotation is not available for local breed of Pig then livestock will be purchased from local market. For Purchasing livestock from local market . For purchasing livestock from local market, Gram Pradhan/Village head/Community head and one of the progressive members from the beneficiaries will join with the agency along with one Veterinary Officer(TVO/BAHO) or may constitute Purchase Committee in District(DPM/FAO/TVO/Gram Pradhan).**

Distribution of Livestock

5. Distribution of livestock will take place in the presence of any member of PRIs (Mukhia/PSS/Ward members etc)
6. After Distribution of Livestock and other item DPMU will collect the beneficiary wise and item wise receiving duly approved by Gram Sabha and Submit the copy of the same to SPMU.
7. It is not necessary that all selected beneficiaries are provided the livestock at one go. It may be provided in phased manner also.

Activity 4 – Integrated Farming (Fish cum Duck Farming)

Status Report (as on 31st March 2025) amount in INR lakhs							
Sl. No	Name of The Activity	Name of Scheme	Physical		Financial		Remarks
			Target	Achievement	Achievement	Achievement	
1	Duck Rearing Rearing	CCD	90 Ponds	83 Ponds	4.95	1.125	Ongoing.

Fisheries is an important economic activity in the Jharkhand for additional employment and income generation. Regarding this JTDS also work on the different Livelihood activities to promote the ST & PVTG to enhance their Income through other activity in combination with Agriculture. For better production of fish , Integrated fish farming can be implemented with PVTGs HH for better income.

JTDS Proposed Fishery Activities with PVTGs HH in JTDS Area with an objectives of :---

- Enhancing Fish Production and Productivity of available water bodies in these areas.
- To increase the Income of PVTGs through fisheries as an additional income for their betterment of Livelihoods.
- For proper Utilization of Pond and good production of Fish ,Fish –Cum Dick culture implementation can be done .

Implementation Mechanism:

- Selection Of Beneficiary having their own Pond /water bodies and interested in Fisheries (With the Support of DPMUs).
- After Finalization , One day field Level Training organize for the beneficiaries .
- Stocking of fish seed /Fingerlings with the support of Deptt. of Fisheries .
- Purchase of Ducklings through Quotation Method or From Different Govt Agencies or Govt Nominated Agency.
- Throughout Monitor and follow-up done by DPMUs.

Proposed Budget for Fish Cum Duck Cultivation					
S.N	Particulars	Unit	No of Unit	Unit Cost (In Rs)	Total Amount (In Rs)
1	Cost of Duck@ 10 /Pond (Khaki Campbell /Indian Runner) of One Month	Nos	90	400	360000
2	Feed Of Duck 20kg/HH	HH	90	1000	90000
3	Vaccination & others for Duck	HH	90	300	27000
4	Netting and others	HH	90	200	18000
5	**Total**				**495000**

For Fish Farming:

- Fingerlings/Spawn/Fish Fry has been stocked through Convergence with Fishery Department.
- Training on Fish Culture will be done in convergence with Fishery Department with the Support of Concerned District Fisheries Officer.

Implementation: Through Concerned JTDS-DPMUs.

Duck Culture Activity

Activity 5 – Farmers Producers Organization (FPO)

Status Report (as on 31st March 2025) amount in INR lakhs							
Sl. No	Name of the Activity	Fund Support	Physical		Financial		Remarks
			Target	Achievement	Achievement	Achievement	
1	FPO	NABARD	4	4	523.49	0	Started from 12.12.2024

A Farmer Producer Organization (FPO) is critically needed in regions like Sewai village to transform subsistence agriculture into a sustainable, profitable livelihood by empowering smallholder tribal farmers who are currently vulnerable due to limited resources and market access. The FPO structure aggregates small, fragmented landholdings and individual produce volumes into a viable commercial scale, granting members essential collective bargaining power to negotiate fair prices directly with buyers and access formal markets, thereby eliminating exploitative intermediaries. Furthermore, the FPO acts as a single access point for institutional credit, quality agricultural inputs at bulk rates, modern technology, and vital capacity-building training. Ultimately, the FPO reduces individual risks, enables collective investment in value addition activities such as processing and packaging, and builds a self-governed, resilient community institution. This institutional strength helps ensure long-term economic stability and sustainability for farmers, even after the initial project support

ends. In view of the critical need for an FPO, the JTDS team undertook a series of focused outreach initiatives in Sewai village. They conducted multiple visits and organized comprehensive awareness programs specifically designed to educate local tribal farmers about the tangible benefits and operational structure of forming a Farmer Producer Organization (FPO). These sessions played a vital role in building trust and consensus within the community. They helped farmers clearly understand how collective action could strengthen their bargaining power, improve market prices, and ease access to essential inputs and credit. Most importantly, the discussions highlighted how working together could help them shift from vulnerable, rain-fed farming to a more resilient, self-governed agricultural enterprise. This sustained engagement created a strong foundation of shared understanding, paving the way for effective mobilization and the eventual registration of the FPO.

After the successful implementation of the IFAD-funded Jharkhand Tribal Empowerment and livelihood Project (JTELP), the Jharkhand Tribal Development Society (JTDS) transitioned its focus towards fostering a community-based approach to provide sustainable support for farmers. As part of this new strategy, the JTDS, with the aim of establishing a Farmer Producer Organization (FPO), a region where tribal farmers relied heavily on rain-fed agriculture. An FPO was considered critically needed to collective produce, enhance bargaining power, facilitate access to inputs and credit (with potential funding from NABARD), and ensure long-term sustainability by eliminating intermediaries and allowing for value-addition. The journey of the Farmer Producer Organization (FPO) began with foundational outreach and rapid institutional setup, driven by the Jharkhand Tribal Development Society (JTDS) DPMU, with funding support secured from NABARD in 4 District i:e Gumla, Godda, Latehar & Simdega.

The Process Followed:

The initial mobilization phase progressed swiftly, with key milestones achieved shortly after the new year, Following activities has been initiated during the year

a. Awareness and Mobilization:
b. Baseline Survey
c. Selection of BOD members
d. Formal registration

Activity 5 – Study & Survey from RMTWRI

Study Title: Survey on the Evaluation Study of Various Developmental Schemes among PVTGs of Jharkhand

Status Report (as on 31st March 2025) amount in INR lakhs							
Sl. No	Name of the Activity	Fund Support	Physical		Financial		Remarks
			Target	Achievement	Achievement	Achievement	
1	Survey on the Evaluation Study of Various Developmental Schemes among PVTGs of Jharkhand	RMTWRI-GoJ	2400 PVTG HH	2315 PVTG HH	3	0.16	Ongoing.

The living conditions of Particularly Vulnerable Tribal Groups (PVTGs) show that schemes have had limited impact on improving their welfare. A key challenge is the inadequate understanding of their socio-cultural environment during policy design and implementation, leading to interventions that are often misaligned with their needs. Moreover, substantial funds allocated by the Central Government remain underutilized, restricting the reach and effectiveness of these programs. There is also limited evidence on how efficient or impactful these schemes have been, making it difficult to assess progress or refine strategies.

This report presents the findings of the Evaluation of Schemes survey conducted among Particularly Vulnerable Tribal Groups (PVTGs) of Jharkhand, with the purpose of assessing their socio-economic conditions, access to basic services, and development needs. The primary objective of the survey was to identify gaps in service delivery and infrastructure, thereby enabling targeted interventions to improve the living standards of these communities. In light of these issues, this survey among PVTG households aims to gather reliable data on their access to services, challenges faced, and the effectiveness of government initiatives.

The methodology involved structured questionnaires designed in local languages for ease of administration. Data collection was carried out using KoboToolbox, allowing for both online and offline inputs from remote locations. The survey covered key areas such as access to sanitation, healthcare, education, nutrition, and livelihood opportunities. Power BI was used for data interpretation and visualization to derive actionable insights and trends.

In this Context ,Survey has been done in 6 Districts of JTDS project area with all the 8 PVTGs HH

Activity 6 – Convergence

As part of its implementation strategy, JTDS promoted convergence with concerned government departments in 14 TSP districts. By strengthening coordination mechanisms, JTDS enabled effective outreach and delivery of government welfare schemes to targeted beneficiaries, ensuring improved access to entitlements and enhanced service delivery at the community level.

Report on Convergence with Different Departments of GOJ at District Level

Sl No.	Particulars	Department/Organization	No. of Beneficiaries	Name of District	Remarks
1	Diesel pump set	ATMA/Soil Conservation	13	SARAIKELA KHARSAWAN & GODDA	SK-1 Beneficiary, Godda-12 Beneficiary
